

The Voice Peering Forum Spring 2006 Announcement

New York, NY, March 1st, 2006 – Stealth Communications, Inc., owner and operator of the Voice Peering Fabric (VPF) will host the Voice Peering Forum Spring 2006 on March 30-31 2006 in Miami, Florida.

With the success of the Voice Peering Forum Fall 2005, VPF continues to bring together industry experts who are c-level executives and business directors to share their insights on the latest business and technology innovations while keeping you up-to-date on current issues and trends that relate to Voice Peering. Attendees will have the opportunity to address questions to our speakers during Q and A sessions following each panel discussion and to meet with representatives of both buyers and sellers of voice applications, equipment and services.

Voice Peering is the latest trend within the technology world that is enabling Service Providers and Enterprises to exchange telephone, video and other telephony related services in a secure peer-to-peer fashion without transversing the public telephone system.

Come and learn how VPF Members and Partners reduce their operating costs, simplify their network and increase revenues through:

- Voice Peering Implementations
- Bi-Lateral Peering (Least-Cost-Routing) and Multi-Lateral Peering (ENUM)
- Transitioning to IP based trunking for voice origination, voice termination and SS7
- Voice Peering Technologies and Techniques
- Strategy, Design and Best Practices for VoIP Security & QoS

The Voice Peering Forum Spring 2006 will also feature:

- One-on-One Meetings and General Networking with 350+ attendees
- Tutorials and crash courses on VoIP gateways, session controllers and testing equipment
- Guide to key Carrier Hotels and Ethernet Providers of North America

Registration is complimentary. For event information, agenda, speakers and to register, please visit: www.thevpf.com/events. For event sponsorship opportunities, please contact Jinci Liu at jinci@stealth.net or 1-212-232-2020.
